DESCRIPTIONS 4 YOU for VTIGER CRM 6.x

Introduction

The Descriptions 4 You is vTiger extensions which allows you to create well formatted descriptions for records. The new descriptions are created in CK Editor so you can use adding tables and images to make your description attractive. The new descriptions can be stored separately, it means you can have additional description to original one or you can simply replace original descriptions by new Descriptions 4 You. The Descriptions 4 You allows you to create description for particular module as well as global description templates, so you can create one global template and use it everywhere in vtiger CRM and save time with additional description formatting.

Descriptions 4 You benefits:

- supported mostly for all modules
- additional description to original description
- supports images, tables and other text formatting
- easy using Descriptions 4 You templates Picklist
- useable for Terms & Conditions Fields
- useable for Custom Textarea Fileds

The image shows a comparison between a standard vTiger description and a description created using the 'Descriptions 4 You' extension. The top part, titled 'Standard vTiger Description', shows a plain text block for 'Terms & Conditions' with a standard payment term of 'thirty (30) days'. The bottom part, titled 'Descriptions 4 You', shows a more formatted version of the same text, with the payment term changed to 'thirty (30) days' and the inclusion of the company logo and contact information for ITS 4 You.

4 Additional feature

4.1 Support of PDF Maker

The PDF Maker is extension tool designed by ITS4You for vtiger CRM. It is powerful and flexible tool which allows users of vtiger CRM to create own pdf templates.

Before creating PDF file you need to create template of PDF Maker. To create template please check manual for PDF Maker:

http://www.its4you.sk/images/pdf_maker/pdf_maker_for_vtiger6_crm.pdf

The image illustrates the PDF Maker extension workflow in vtiger CRM, showing three main stages:

- EditView of PDF Maker:** This interface allows users to create or edit PDF templates. It includes fields for Template name, Module, and Description. A list of available fields (e.g., Record ID, Address Details, Terms & Conditions) is shown on the right. A rich text editor is used to define the template content.
- EditView of Invoice:** This interface shows the invoice content being edited. It includes sections for Terms & Conditions and Description Details. The content is rendered in HTML, showing the integration of the PDF Maker template.
- DetailView of Invoice:** This interface shows the final invoice output. It includes sections for Invoice Details, Address Details, Terms & Conditions, and Description Details. The invoice is rendered in a professional format, showing the integration of the PDF Maker template.

The 'PDF File' preview shows the final output of the PDF Maker extension, displaying the invoice content in a professional format. The preview includes the following content:

- Special Terms & Conditions for all modules.
- Your **OWN** description for all modules.

Picture 4.1: Support of PDF Maker

4.2 Support of EMAIL Maker

The Email Maker is extension tool designed for the vtiger CRM. Using EMAIL Maker you can create email templates with predefined information and send them from all the modules. There are available all the fields from source and related modules, the fields related to recipients, the company information and many more. The intention was to provide powerful and flexible tool which allows users of vtiger CRM to create own email templates. Using the email templates you can send mass emails from ListViews (e.g. Invoices, Quotes, Products, etc.) and finally save lot of your time. Sending is running in background. You are informed about sending process by small popup window.

Full functionality of Email Maker you can find on following link:

http://www.its4you.sk/images/stories/email-maker/Email_Maker_for_vtiger_CRM_6.pdf

The image is a composite of four screenshots from the vtiger CRM interface, illustrating the EMAIL Maker tool's integration. The top screenshot, titled "EditView of EMAIL Maker", shows a configuration page for an email template named "InvoicewithDescription4You". It includes tabs for "Module information", "Other information", "Labels", "Product block", "Settings", and "Sharing". The "Module information" tab is active, showing the module set to "Invoice" and various dropdown menus for related modules and blocks. A rich text editor is visible at the bottom with the text "\$-invoice-terms_conditions\$".

The second screenshot, "EditView of Invoice", shows the "Terms & Conditions" and "Description Details" sections of an invoice. The "Description" field contains HTML code for styling and includes a link to a logo image. The "Terms & Conditions" field contains the text "Special Terms & Conditions for all modules.".

The third screenshot, "DetailView of Invoice", shows a list view of invoices. The selected invoice is displayed in detail, showing "Invoice Details", "Address Details", "Terms & Conditions", and "Description Details". The "Description" field contains the text "Your OWN description for all modules.".

The fourth screenshot, "EditView of Email", shows the "Compose Email" interface. It includes a "Subject" field, a "Select Email Template" dropdown, and an "Attachment" section. The "Description" field contains the text "Special Terms & Conditions for all modules." and "Your OWN description for all modules.".

Picture 4.2: Support of EMAIL Maker

4.3 Support of Custom Textarea Fields

You can add your description or text into your own Custom Fileds for all modules, that are “Text area” type. To create own Textare Fields please provide following steps (if you have created your Custom Textarea Field, you can skip steps 1-3):

1. Click on  in module you want to edit and choose **Edit Fields**

Picture 4.3: Custom Fields – step 1

2. Next, click on **Add Custom Field** button

Picture 4.4: Custom Fields – step 2

3. Choose **Text area** and type name of your Field. Click on **Save** and your Field will be created

Picture 4.5: Custom Fields – step 3

4. Now you can use Custom Field in EditView and add your own Description template (chapter 3.4 Using Descriptions 4 You Picklist)

5.5 Uninstall

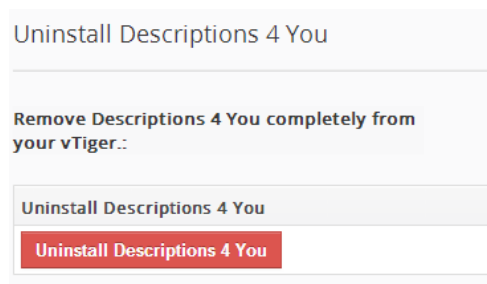

There is option to remove Descriptions 4 You from your vTiger. To uninstall please provide following steps:

- Go to the listView of Descriptions 4 You and choose option **Uninstall Descriptions 4 You**

Picture 5.13: Uninstall – step 1

- Click on **Uninstall Descriptions 4 You** button

Picture 5.14: Uninstall – step 2

- Confirm uninstall with **Yes** button

Picture 5.15: Uninstall – step 3

Now, Descriptions 4 You is removed from your vTiger and your license key is deactivated. To use Description 4 You again you need to provide installation and validation steps (see chapter How to install Descriptions 4 You).

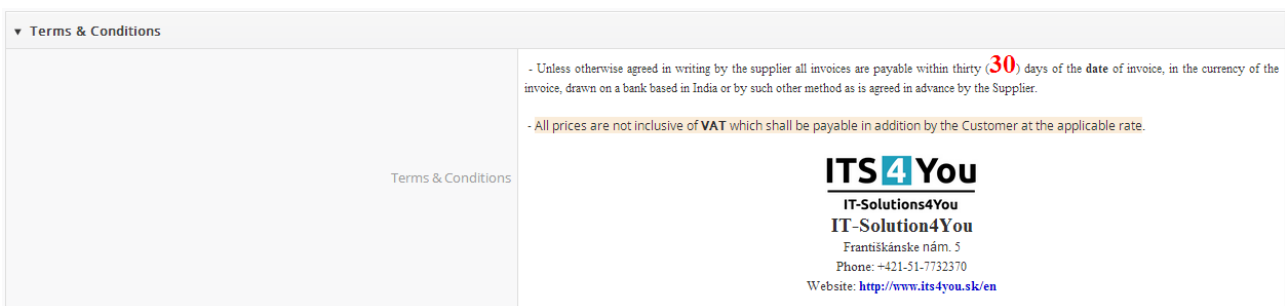

6 Known issues

6.1 HTML “shown”

When you use in your Description tables, images etc. and to make some design adjustment of the Description like font change, color, format, size, background color of the text etc. **Only** in the Editview, your Description is shown like HTML code, in DetailView or PDF Maker it is displayed correctly. It is solvable problem, but it requests vTiger source code changes.

Picture 6.1: HTML code in EditView

Picture 6.2: Correctly shown in DetailView

6.2 Add/replace and manually modify of Description

We recommend first add or replace your Description and then modify Textarea manually (chapter 3.4 Using Descriptions 4 You Picklist). If you first modify and the use adding and replacing, it does not have to work correctly.
